

Three-Tine Chrome-Plated Hand Cultivator with Wooden Handle

This hand cultivator features a three-tine head made of chrome-plated steel, designed for loosening soil, weeding, and preparing seedbeds. The tool is equipped with a smooth, ergonomic wooden handle for comfortable grip and ease of use.

Product Overview

Professional Hand Cultivator

This three-tine hand cultivator is a versatile tool designed for essential gardening tasks, including loosening soil, weeding, and preparing seedbeds. Featuring a durable chrome-plated steel head, it provides excellent resistance to rust and wear during soil manipulation. The ergonomic wooden handle ensures a comfortable grip, making it an ideal choice for precise gardening work in flowerbeds and small-scale plots.
