

Three-Wheel Motorized Vehicle

This is a motorized tricycle. The three-wheel design provides stability.

Overview

Versatile Three-Wheel Mobility

This three-wheel motorized vehicle is engineered for reliability and performance in various applications. Featuring a powerful 200cc GY6 4-stroke engine, it offers robust acceleration and consistent power delivery for professional tasks. With an automatic transmission and electric starting system, this vehicle is designed for ease of operation and maneuverability.

Engine & Performance

Key Performance Metrics

200 cc

Engine Displacement

11 kw

Max Power

13 Nm

Max Torque

Engine Specifications

- Engine Type: GY6, 4-stroke
- Ignition System: CDI
- Transmission: Automatic
- Starting System: Electric start

Technical Specs

Braking System Front Disc Brake, Rear Disc Brake

Battery Specifications 12V 9AH
