

# Three-Wheeled Cargo Motorcycle

This is a three-wheeled motorcycle designed for cargo transport. It features a flatbed cargo area with side rails, a single headlight, and front suspension.

## Overview

### Built for Heavy-Duty Transport

This three-wheeled cargo motorcycle is engineered for efficient goods transportation in urban and industrial environments. Featuring a robust cargo bed with protective side rails, it offers a stable and reliable solution for moving materials. Its design combines front suspension for better handling with a practical layout suitable for varied logistics needs.

## Key Metrics

### Configuration

**3 wheels**

Wheel Count
