

Three-Wheeled Cargo Motorcycle

This three-wheeled motorcycle is designed for cargo transport. It features a standard motorcycle front end coupled with a rear cargo bed and dual-wheel axle.

Overview

Versatile Cargo Transport Solution

This three-wheeled cargo motorcycle is engineered for efficient short-haul transport in urban and semi-rural environments. Featuring a robust front motorcycle chassis paired with a dedicated rear cargo bed, it offers a stable and maneuverable platform for carrying goods. Its design prioritizes utility and ease of operation, making it an ideal choice for last-mile delivery and logistics tasks.

Vehicle Configuration

Configuration	Three-wheeled cargo motorcycle
Design Layout	Front-engine, Rear-cargo-bed, Three-wheel-chassis

Key Features

Cargo Bed Features

- Integrated side rails for load security
- Rear axle with dual-wheel support
- Heavy-duty cargo bed construction

Performance Metrics

3 wheels

Wheel Count
