

Three-Wheeled Cargo Truck

This three-wheeled vehicle is equipped with a flatbed cargo area, making it suitable for transporting goods. It features a scooter-style front end, a single seat for the driver, and a cargo bed with side rails.

Overview

Versatile Light Hauling Solution

This three-wheeled cargo truck offers an agile and efficient solution for small-scale logistics and transport tasks. Featuring a robust flatbed cargo area and a maneuverable scooter-style front end, it is designed for ease of navigation in tight spaces. It serves as an ideal tool for light hauling needs in urban or warehouse environments.

Technical Specifications

Vehicle Configuration	Three-wheeled cargo vehicle
