

# Three-Wheeled Gasoline Cargo Motorcycle

This three-wheeled cargo motorcycle is designed for transporting goods and supplies. It features a covered cabin, a flatbed cargo area, and a robust suspension system.

## ADDITIONAL IMAGES

## Overview

### Robust Cargo Transport Solution

This three-wheeled gasoline cargo motorcycle is engineered for reliable, heavy-duty transport in both urban and rural environments. It features a powerful 150CC air-cooled engine paired with a 5-speed transmission, ensuring consistent performance under load. With a reinforced cargo bed and a stable suspension system, it is built to handle demanding daily operations while providing protection for the driver.

## Performance Metrics

### Engine & Power

**150 CC**

Engine Displacement

**8.5 kw**

Rated Power

**10 N.m**

Max Torque

**60 km/h**

Max Speed

## Dimensions & Capacity

### Dimensions

Component	Size
Overall Size	3400mm * 1350mm * 1750mm
Cargo Box	1800mm * 1250mm * 340mm

### Weight Specifications

**360 kg**

Curb Weight

**750 kg**

Max Designed Load

## Technical Specifications

### Powertrain

- 5 Speed + 1 Reverse Gear transmission
- Shaft transmitted drive
- DC CDI Ignition
- Chang'an 3/4 floating rear axles
- Multiple-filtering air filter system

### Fuel Efficiency

**16 L**

Tank Capacity

**350 km**

Range per Charge

## Key Features

### Vehicle Highlights

Reinforced Cargo Box, Hydraulic Suspension, Mechanical Drum Brakes, Dust-Resistant Filtration
