

# Tiered Wire Basket Display Rack

This multi-tiered wire basket rack is designed for supermarket use. It features a sturdy metal frame and inclined basket shelves for product display and easy access.

## Product Overview

### Professional Retail Display Solution

This tiered wire basket display rack is engineered for high-traffic supermarket environments, offering an efficient way to showcase promotional products. The multi-tiered, inclined design maximizes vertical retail space while ensuring excellent product visibility and easy customer access. Built for longevity, the structure utilizes high-grade coating processes to provide exceptional resistance to oxidation and wear in demanding commercial settings.

## Technical Specifications

Surface Coating Process	Phosphate rust - epoxy polyester powder coating
Anti-Oxidation Lifespan	10 years

## Design Features

Key Design Attributes	Tiered Structure, Inclined Baskets, High-Visibility Design, Ventilated Wire Construction
-----------------------	--

## Application

### Suitable Environments

- Supermarkets
- Retail Promo Displays
- High-traffic commercial aisles
