

Tile and Stone Cutting Saw

This portable electric wet saw is designed for cutting tiles, stone, and masonry materials. It includes a water cooling system, adjustable cutting depth, and a diamond blade for clean cuts.

Product Overview

Professional Tile and Stone Cutting Saw

This portable electric wet tile saw is engineered for precision cutting of tiles, stone, and masonry materials. It features an integrated water cooling system designed to minimize dust output while significantly extending the operational life of the diamond blade. Built for professional environments, the saw offers adjustable cutting depth and robust construction to handle various tile sizes and thicknesses with ease.

Technical Specifications

Safety Features

- Integrated safety guard
- Water cooling system for dust reduction

Construction

Portable • Professional Grade • Durable

Cutting Capabilities

Straight Cuts, Angled Cuts, Wet Cutting

Included Blade

Diamond blade
