

Tile Cutting and Bending Machine

This compact electric tile saw is designed for cutting ceramic, porcelain, and stone tiles. It features an adjustable cutting depth and bevel angle for versatile cutting options.

Overview

Professional Tile Cutting Solution

This compact electric tile saw is engineered for precision cutting of ceramic, porcelain, and stone tiles. It integrates a water cooling system to effectively minimize dust generation while simultaneously extending the operational life of the blade. With adjustable cutting depth and bevel angle capabilities, it offers the versatility required for various professional and DIY tile installation projects.

Technical Specifications

Adjustable Features

- Adjustable cutting depth
- Adjustable bevel angle

Adjustable Features	
Cooling System	Yes
Cutting Capabilities	Ceramic, Porcelain, Stone
