

Tile Cutting Machine

This tile cutting machine is designed for precise and efficient tile cutting. It features a sturdy frame, a sliding cutting head with a circular blade, and an integrated water reservoir for cooling and dust reduction.

Product Overview

Professional Precision Tile Cutting

This high-performance tile cutting machine is engineered to provide precise and efficient cuts for various tiling projects. Featuring a robust frame and an integrated water cooling system, it ensures clean results while effectively minimizing airborne dust during operation. With its versatile table surface and sliding cutting head, it offers the stability and control required for professional-grade tile installation.

Technical Specifications

Cooling Mechanism	Integrated water reservoir for blade cooling
Blade Type	Circular cutting blade
Design Features	Sturdy frame, Sliding cutting head, Water cooling system, Stable table surface

Usage

Target Users

Professional Tile Installation • DIY Projects
