

Tile Cutting Power Tool with Water Cooling

This tile cutter is a power tool for precisely cutting tiles made of ceramic, porcelain, glass, and stone. It uses a diamond-tipped blade with a water cooling system to minimize dust and friction for clean and accurate cuts.

Product Overview

Professional Tile Cutting Power Tool

This specialized tile cutter features a high-performance motor and a recirculating water cooling system designed to deliver clean, precise cuts on ceramic, porcelain, and stone. Equipped with a turnable table and adjustable angle functions, it offers versatility for both standard and miter cuts. The integrated water tray manages dust and slurry effectively, ensuring a safer and cleaner workspace for professional tiling projects.

Technical Specifications

Rated Power

720 W

Peak Power

600 W

Rated Power

Mains Voltage	230 V
Frequency	50 Hz
No Load Speed	2980 r/min

Cutting Capability

Disc Diameter	180 mm
Max Cutting Thickness	32 mm

Features & Construction

Safety and Control

- Magnetic switch
- Water cooling system
- Adjustable cutting table

Frame Construction	Metal plate welding frame
Operational Functions	Angle cutting, Bevel cutting, Turnable table
