

Tile Nippers - Handheld Tile Cutting Tool

Tile nippers are hand tools for precisely cutting and shaping tiles. Featuring hardened jaws and ergonomic handles, they provide clean breaks and enhanced control for detailed tile work.

Product Overview

Professional Tile Nippers

These handheld tile nippers are professional-grade tools engineered for precise cutting and shaping of ceramic, porcelain, and glass tiles. Featuring hardened jaws that apply concentrated pressure, they ensure clean breaks along scored lines for high-quality installation results. The ergonomic handle design and integrated spring-loaded mechanism work together to reduce user fatigue during long flooring, backsplash, or mosaic projects.

Technical Specifications

Operating Features

- Hardened steel jaws for concentrated pressure
- Ergonomic handle design for extended use
- Spring-loaded mechanism for smooth operation
- Manual control for intricate shaping

Performance Metrics

1 Spring-Loaded

Mechanism Type

Primary Applications

Ceramic Tiles, Porcelain Tiles, Glass Tiles, Flooring, Backsplash, Mosaic Work
