

Tile Nipping Pliers with Ergonomic Grip

These tile nipping pliers are designed for scoring and snapping ceramic wall tiles. They feature a plastic breaking bar and EVA hand grip for comfort.

Product Overview

Professional Tile Nipping Pliers

These tile nipping pliers are engineered with hardened steel jaws, ensuring precise and clean cuts for a variety of materials including ceramic, porcelain, and glass tiles. Designed with user comfort in mind, the ergonomic handles help reduce hand fatigue during extended use. This tool is an essential addition for professional tile installers and dedicated DIY enthusiasts looking for reliability and precision.
