

Tilting TV Wall Mount for 42-70 inch Screens

This ultra-slim TV wall mount sits only 65mm from the wall, complementing modern flat screens. Its lateral shift feature allows for effortless TV adjustment to achieve the ideal viewing angle.

Overview

Versatile Tilting TV Wall Mount

This heavy-duty steel TV wall mount is engineered to support screens between 42 and 70 inches with a maximum weight capacity of 40kg. Designed for both residential and commercial spaces, its low-profile 65mm clearance provides a sleek look while the +/- 10° tilt functionality effectively eliminates glare. With universal VESA compatibility and included safety locking hardware, it offers a secure, flexible, and professional mounting solution for any modern flat or curved screen.
