

Timer and Counter Module

This timer and counter module provides accurate timing and counting functions. It is suitable for use in a variety of industrial control systems.

Product Overview

Professional Electrical Connectivity Solution

This high-performance NEMA 10-50P plug is engineered for heavy-duty industrial and residential applications, providing a secure power connection for high-draw equipment such as electric stoves, dryers, and specialized machinery. Its robust four-prong architecture ensures consistent power delivery through two hot lines, a dedicated neutral, and a reliable ground. Constructed from premium heat-resistant materials, this module is built to maintain safety and integrity under demanding electrical loads.

Electrical Specifications

Rated Current	50 A
Rated Voltage	250 V

Design and Build

Plug Configuration	NEMA 10-50P
Key Design Features	4-Prong Design, Heat-Resistant Material, Heavy-Duty Construction

Applications

Typical Industrial Use Cases

- Industrial Equipment
- Electric Stoves
- High-Power Dryers
