

Timer-Equipped Drip Coffee Maker

This timer coffee maker is designed for convenient placement in any home setting. Its removable parts facilitate easy and thorough cleaning.

Product Overview

Compact & Programmable Brewing

This timer-equipped drip coffee maker offers a versatile brewing solution for home or office environments. Featuring a programmable clock and clear LED display, it allows for convenient scheduling. With dual-mode operation, users can choose between a single 250ml ceramic cup or a full 500ml glass bottle, ensuring flexibility for different needs.
