Product Overview

Robust Tipper Solution

This green tipper truck is engineered for heavy-duty material transport and unloading applications. It features a sturdy chassis and a reliable cab-over engine design for improved maneuverability. Equipped with a secure cargo bed cover and side rails, it ensures protected and efficient handling of bulk materials in industrial environments.

Technical Specifications

Gross Vehicle Weight

4290 kg

Maximum Total Weight

Ideal Applications

Bulk Material Transport • Construction • Industrial Logistics

Design Type

Cab-over engine, Tipper, Covered load bed

Construction Details

Structural Features

- Heavy-duty chassis construction
- Integrated cargo bed tarpaulin cover
- Protective side rails
- Robust suspension components
