

Tire Changer Machine

This tire changer is a robust machine designed for efficient tire mounting and demounting. It features a powerful motor, pneumatic controls, and a sturdy frame for durability.

Overview

Professional Tire Service Solution

This robust tire changer is engineered for high-volume tire mounting and demounting applications. Built with a sturdy frame and powerful motor, it ensures long-term reliability and operational productivity in professional workshops. The machine features precise pneumatic controls and an intuitive design to simplify tire service tasks.

Technical Performance

Key Performance Metrics

24 inches

Max Clamping Range

41 inches

Max Wheel Diameter

2500 kg

Bead Breaker Force

Minimum Clamping Range

10 inches

Features

Operational Benefits

High Volume Ready • Easy Maintenance • Precise Operation

Standard Features

Pneumatic Controls, Turntable Clamping, High-Power Motor, Sturdy Frame
