

Tire Foam Polish for Cleaning and Protection

This foam polish is designed to clean and protect tires. It enhances the tire's appearance while preventing aging and cracking.

Product Overview

Professional Tire Maintenance Solution

This advanced foam polish is specifically formulated to remove dirt and grime from tires efficiently and thoroughly. It provides a protective barrier that helps prevent perishing, cracking, and color fading, significantly extending the service life of your tires. The non-corrosive formula is safe to use and will not cause harm to rims or surrounding tire components.

Technical Specifications

Container Volume	650 ml
