

TN110 Pick and Place Nozzle

This TN110 nozzle is designed for component placement. It ensures accurate and reliable performance in SMT assembly processes.

Product Overview

High-Precision Pick and Place Nozzle

This precision-engineered pick and place nozzle is designed for reliable component placement within automated assembly lines. Built to meet exacting industry standards, it ensures optimal vacuum performance and longevity during high-speed SMT production. The nozzle is compatible with various series equipment, facilitating seamless integration and consistent placement accuracy.

Technical Specifications

Nozzle Compatibility & Dimensions

Series	Part Number	Outer Diameter	Inner Diameter
CP45	J7055246A	0.8mm	0.28mm
CP45	J7055267A	0.75mm	0.38mm
CP45	J7055131C	1.2mm	0.65mm
CP45	J7055132C	2.2mm	1.4mm
CP45	J7055133C	3.6mm	2.2mm
CP45	J7055135C	6.2mm	4.0mm
CP45	J7055137C	12.7mm	11.0mm
CP45 NEO	J9055133B	0.8mm	0.28mm
CP45 NEO	J9055134B	0.75mm	0.38mm
CP45 NEO	J9055135B	1.2mm	0.65mm
CP45 NEO	J9055138B	2.2mm	1.4mm
CP60	J9055069B	0.8mm	0.3mm
CP60	J9055070B	0.75mm	0.38mm
CP60	J9055071B	1.2mm	0.65mm
CP60	J9055072C	2.2mm	1.4mm
CP60	J9055073C	3.6mm	2.2mm
CP60	J9055074C	6.2mm	4.0mm
