Product Overview

High-Precision SMT Pick and Place Nozzle

This precision-engineered pick and place nozzle is designed for automated electronic component assembly in high-speed SMT environments. Built for reliability and durability, it ensures accurate component pickup and placement to maintain high production efficiency and minimize assembly downtime. Compatible with a variety of industry-standard pick-and-place machines.

Technical Specifications

Compatibility Overview

Series	Part Examples
CP 20/40	SAM-NXG, SAM-N045, SAM-N75
CP 45	TN03, TN110, J7055137C
CP 45 NEO	CN030, CN040, CN065, CN140
CP 60	TN030, TN045, TN220, TN400

Design Features

- Tapered tip for precision
- Threaded body for height adjustment
- Central disk for stability
- Blackened finish options available
