

Toast Moulder Machine

This toast moulder utilizes first-class materials in its pressing wheel, incorporating pressurizing, grinding, and cauterizing technologies to prevent scratches and stickiness. Its structure ensures fast speed and fine exhausting performance for efficient operation.

Product Overview

Professional Toast Moulder

The toast moulder is a specialized kitchen appliance designed to efficiently and consistently shape bread dough for uniform toast production. Featuring high-grade non-stick pressing wheels and a durable conveyor system, it ensures optimal dough extension and performance. This robust machine is an ideal solution for commercial kitchens and high-volume food service establishments looking to increase productivity while maintaining consistent quality.

Technical Specifications

Power Output	0.75 KW
Weight	208 KG
Working Width	38 cm
Dimensions (L x W x H)	50 x 105 x 130 cm

Build Quality

Key Performance Features

- Fast speed operation
- Advanced dough exhausting performance
- Complete dough extension
- Heavy-duty conveyor belt

Pressing Wheel Features	Non-stick, Scratch-resistant, High-durability
