

Top-Filling AI Intelligent Humidifier

This AI intelligent humidifier features a top-filling design and provides a high humidification rate of 1000ml/h. It is designed to intelligently regulate humidity levels for optimal comfort.

Product Overview

Professional AI-Integrated Humidification

The SH1010 AI Intelligent Humidifier offers professional-grade moisture control for spaces ranging from 10 to 100 square meters. Featuring a high-capacity 8.0L tank and rapid 1000ml/h warm mist output, it ensures optimal comfort levels through an advanced AI control system. With dual-stage sterilization using UV and 100°C thermal processing, this unit provides both efficient performance and a clean, safe atmosphere for any environment.

Performance Metrics

Performance Capabilities

1000 ml/h

Max Mist Output

8 L

Water Tank Capacity

100 m²

Max Coverage Area

Technical Specifications

Product Name: Hybrid top filling Humidifier

Product Model: SH1010

Dimension: 290*200*700mm

Package Size: 325*240*450mm

Rated Power: 440W

Rated Voltage: 100~120V or 220-240V

Max. Mist Output: 1000ml/h

Water Tank: 8.0L

Product specifications and design overview for the SH1010 model.

Electrical Requirements

Parameter	Value
Rated Power	440W
Voltage Range	100-120V / 220-240V

Dimensions

- Product: 290 x 200 x 700 mm
- Package: 325 x 240 x 450 mm

Advanced Features

Core Technologies

AI Intelligent Control, UV Sterilization, 100°C Double Sterilization, Warm Mist Technology, Top-Filling Design
