

Top-Freezer Refrigerator (108L, 130L, 150L)

This top-freezer refrigerator provides efficient cooling and ample storage. Available in multiple sizes, it is designed with adjustable shelves and energy-saving features.

Overview

Compact Cooling Solution

This top-freezer refrigerator series offers efficient cooling performance tailored for compact living spaces. Available in three capacities—108L, 130L, and 150L—it balances storage volume with a space-saving design. Each unit features energy-saving technology, helping users reduce daily electricity consumption while maintaining consistent cooling for food preservation.
