Product Overview

Efficient Cooling Solution

This top-freezer refrigerator provides a reliable and energy-efficient cooling solution for professional or residential use. Designed with a convenient mechanical control system and interior lighting, it ensures easy operation and visibility. The unit features a versatile layout with a reversible door and adjustable front feet, allowing for seamless integration into various kitchen configurations.

Technical Specifications

TRF-210

Feature:
 Mechanical control
 Defrost type
 Interior light
 Energy saving and low noise
 Reversible door
 Adjustable front feet
 Glass and wire shelf optional
 Grip handle optional

Capacity: 207 L

Energy Class: A

Net Weight: 205.0 (20.0) Kg

Dimensions (W*D*H) (mm): 545*550*1440

Load Capacity: 139 (139) Kg
