

Top-Loading Dual Tub Washing Machine

This top-loading washing machine has a dual tub for washing and spin-drying clothes. Control knobs allow users to adjust wash settings and timer.

Product Overview

Efficiency Meets Compact Design

This top-loading dual tub washing machine offers a practical solution for smaller living spaces, combining a dedicated wash basin with a spin-dry tub. Its compact, space-saving footprint makes it an ideal choice for apartments and small households. With intuitive control knobs for wash settings and timers, it provides reliable performance and operational simplicity.

Technical Specifications

Core Features
