

Top-Loading Washing Machine

This top-loading washing machine has a 6.5kg spin capacity. It operates at 220V and 50Hz with an input power of 190W.

Product Overview

Compact Washing Solution

This top-loading washing machine is a space-efficient appliance designed for high performance in compact environments. With a 6.5kg spin capacity and efficient 190W power consumption, it provides a reliable solution for everyday laundry needs. Its lightweight 10kg net weight ensures ease of placement, while the durable build quality makes it an ideal choice for professional or personal small-scale washing requirements.
