

Top Loading Washing Machine

This top loading washing machine features electronic controls and multiple wash cycles. It has a transparent lid and a white body with silver and gray accents.

Product Overview

Professional Top Loading Solution

This top-loading washing machine offers efficient performance with a user-friendly electronic control interface. Designed with a clean white finish and silver-accented top, it provides multiple wash cycles to accommodate various fabric types. Its transparent blue lid allows for easy monitoring, while the integrated jetspa technology ensures effective cleaning results.
