

Top-Mount Refrigerator

This top-mount refrigerator is designed for efficient cooling and storage. It features a two-door configuration with a freezer compartment at the top and a refrigerator compartment below.

Overview

Efficient Cooling Solution

This top-mount refrigerator is designed for reliable cooling performance and efficient storage in compact spaces. Featuring a classic two-door configuration with the freezer compartment located at the top, it maximizes usability for smaller kitchens or apartments. The interior is highly organized with adjustable shelving, dedicated door storage, and a specialized crisper drawer to keep produce fresh.
