Product Overview

Engineered for high durability and OEM fitment.

High-Performance Strut Mount for Honda Civic

This top strut mount is precision-engineered to serve as the critical link between the strut assembly and the vehicle chassis. Crafted from high-quality steel and natural rubber, it effectively absorbs road vibrations and minimizes noise to ensure a smooth, stable, and comfortable driving experience. The component features an electrophoretic coating for enhanced corrosion resistance and long-lasting durability in various driving environments.

Technical Specifications

Essential suspension components for a stable and controlled ride.

Materials	Metal with natural rubber
Fitment Type	Direct replacement
Compliance	ISO, IATF 16949:2016

Ordering Information

Accepted Trade Terms	EXW • FOB • CIF
Minimum Order Quantity	100 pcs
Estimated Delivery	45-60 days
Warranty	12 months

Key Features

Driving Improvements

- Resolves suspension jitters
- Improves ride comfort
- Enhances vehicle stability
- Prevents oil leakage
- Resists rubber cracking
