Product Overview

High-Fidelity Audio Connectivity

This premium Toslink optical fiber cable is engineered for superior digital audio transmission, ensuring crystal-clear sound with minimal signal loss. It is designed to provide a reliable, secure connection for a wide range of professional and home theater audio equipment. With its durable construction and resistance to electromagnetic interference, this cable maintains signal integrity in any environment.

Technical Specifications

Transmission Medium	Optical Fiber
Connector Type	Toslink
EMI Resistance	Yes

Application

Supported Devices

- Blu-ray Players
- CD Players
- Gaming Consoles
- Soundbars
- AV Receivers
- Home Theater Systems

Performance Key Metrics

1 Minimal
Signal Loss

100 %
EMI Shielding

Quality Standards

Construction Quality

Durable Construction, Precision-Polished Ends, Secure Connection
