

Touch Control Nightlight USB Wall Charger

This innovative device combines a nightlight with a USB wall charger. It features touch control for adjusting the brightness of the nightlight.

Product Overview

Versatile 2-in-1 Charging Solution

This innovative device seamlessly integrates a nightlight with a high-performance USB wall charger, making it an essential accessory for modern living spaces. Featuring intuitive touch control, users can adjust the nightlight's brightness to their preferred level, creating the perfect ambiance. With three integrated USB ports delivering a combined 2.4A output, it provides a convenient and efficient way to power multiple devices simultaneously.

Technical Specifications

Total Output Current

2.4 A

Shared Output

Input Voltage	240 V
