

Touchless Automatic Liquid Soap Dispenser

This automatic soap dispenser features touchless operation for hygienic use. It is constructed with durable materials and includes a visible soap level indicator.

Product Overview

Hygiene-Focused Touchless Operation

This automatic liquid soap dispenser features advanced IR sensor technology to provide a completely touch-free, hygienic experience for users. Designed with a transparent fill-level indicator and a stable, non-slip base, it is an ideal solution for kitchens, bathrooms, and public restroom environments. The unit operates on battery power, ensuring easy and flexible placement without the need for fixed wiring.
