

Touchless Automatic Soap Dispenser

This automatic liquid soap dispenser uses intelligent sensor technology for touchless operation. It provides a measured amount of soap with each use for hygienic hand sanitization.

Product Overview

Touchless Hygiene Solution

This automatic liquid soap dispenser offers a touchless, hygienic solution for high-traffic environments such as bathrooms and kitchens. Featuring intelligent infrared sensor technology, it ensures precise and reliable dispensing with every use. Its durable construction and wall-mountable design make it a practical, long-lasting addition to any facility.

Technical Specifications

Bottle Capacity	1200 ml
Sensing Distance	8 cm
Dimensions	125 x 107 x 260 mm
Net Weight	0.6 kg

Operational Guidelines

Installation Requirements

- Wall-mountable design with 4 rear grooves
- Maintain at least 40cm of clearance space below the unit to prevent misoperation

Usage Instructions

- Prime the pump head several times before first use to expel excess air
- Automatic shut-off occurs after spraying every 3 seconds during continuous induction
- Re-sensing is required to continue operation
