

Touchless Liquid Soap Dispenser

This automatic dispenser provides touchless operation for dispensing liquid soap. Its sensor-activated nozzle ensures hygienic handwashing in kitchens and bathrooms.

Product Overview

Hygienic Hands-Free Technology

This stainless steel touchless liquid soap dispenser provides an advanced, hygienic solution for both residential and professional environments. Featuring an automatic infrared sensor, the device ensures a contact-free dispensing experience to maintain high sanitation standards. Its durable body combined with a transparent fill-level indicator makes it both functional and easy to maintain.
