

Touchless Single-Hole Electronic Faucet with Glass Spout

This electronic faucet features a sleek, modern design with a chrome finish. It incorporates a clear glass disk as part of the spout, creating a unique waterfall effect.

Product Overview

Modern Touchless Waterfall Design

This touchless single-hole electronic faucet combines advanced sensor technology with a striking glass spout design to deliver a sophisticated waterfall effect. Engineered for hygiene and efficiency, the solid DR-brass construction ensures durability in commercial environments. It is an ideal solution for facilities requiring ADA compliance, vandal resistance, and water conservation.

Technical Specifications

Power Supply

- DC: 4 x AA Alkaline Batteries
- AC/DC Alternating Power

Working Pressure

0.5 Bar

Min Pressure

7 Bar

Max Pressure

Sensor Configuration

Parameter	Value
Sensing Distance	25 cm (Adjustable)
Response Time	0.3 sec
Off Delay Time	1 sec

Material & Finish

Solid DR-Brass, Chrome Finish, Glass Spout

Performance & Compliance

Key Advantages

Water Efficient • Hygienic • No-touch Activation • ADA Compliant • Vandal Resistant • Waterproof Components

Battery Life Cycle

500000 on/off cycles

Logistics & Warranty

Warranty

1 Year

Packaging

1 unit per box (white/gift box option), 10 units per export standard carton
