

Touchscreen Feature Phone

This mobile phone combines a touch screen display with physical buttons. It features a rear camera with flash and a removable battery cover.

Product Overview

Versatile Touchscreen Feature Phone

This touchscreen feature phone combines the utility of a smartphone interface with the reliability of a classic mobile device. Equipped with essential productivity tools like Excel Mobile and email capabilities, it is designed for professionals who need connectivity on the go. The sleek design features metallic accents, a responsive touch display, and physical navigation buttons for enhanced usability.
