

Tower Air Cooler with Ionizer and LCD Display

This tower air cooler features a 25-30L water tank and an ionizer. It has an LCD display, remote control, and a 200W motor.

Product Overview

High-Efficiency Tower Cooling

The Tower Air Cooler delivers professional-grade cooling performance with its powerful 200W motor, making it an ideal solution for maintaining comfortable air temperatures in larger spaces. Featuring an integrated ionizer to enhance air quality and a convenient digital LCD display, this unit combines modern design with user-friendly operation. The inclusion of a large 25-30L water tank ensures extended runtime, while the remote control allows for seamless adjustments in any professional environment.
