

# Tower Fan with Automatic Temperature Control

This tower fan provides efficient air circulation with automatic temperature control. It features a digital display and offers multiple settings, including a timer and oscillation function.

## ADDITIONAL IMAGES

## Product Overview

### Advanced Climate Control Tower Fan

This tower fan features intelligent Automatic Temperature Control (ATC) that dynamically adjusts wind volume based on real-time room temperature. Designed for modern living and office spaces, it combines a sleek, space-saving footprint with powerful air circulation capabilities. Users benefit from a versatile range of wind modes, including natural and sleeping settings, all easily managed via an intuitive infrared remote control.

## Performance & Operation

### Power Output

**50 W**  
Power

Operating Modes	Natural Wind, Sleeping Wind, Normal Wind
Timer Duration	0.5 to 7.5 hours
Automatic Temperature Control	Yes

## Design & Interface

Display Interface	Blue LCD
Oscillation	Yes
Control Method	Infrared Remote Control
Temperature Display	Yes
