Product Overview

Efficient Tower PTC Heating

This advanced Tower PTC Fan Heater provides rapid and consistent warmth through its efficient ceramic heating element. Designed for modern environments, it features wide-angle oscillation to ensure even heat distribution across your space. With user-friendly digital touch controls, a 12-hour timer, and remote operation, this heater offers both convenience and high-performance climate control for home or office settings.

Technical Specifications

Performance Metrics

1000 W

Low Heat Mode

2000 W

High Heat Mode

12 hours

Max Timer Duration

Electrical Requirements

Parameter	Value
Voltage	220-240V
Frequency	50Hz

Safety & Certification

Key Safety Mechanisms

- Thermal Cut-out
- Overheat Protection
- Tip-over Safety Switch

Compliance Standards

GS, CE, LVD, EMC, ROHS, REACH, ERP

Design & Convenience

Convenience Features

- Remote Control
- Digital Touch Screen
- Wide-angle Oscillation
- Integrated Cord Storage
- Portable Casters
- Recessed Handle

Logistics

Loading Quantity

Container Type	Capacity (Sets)
