

Tower PTC Heater with Digital Display

This tower-style PTC heater is designed for efficient space heating. It features an adjustable thermostat, oscillation function, digital display, overheat protection, and a tip-over switch.

Product Overview

Efficient Tower Heating Solution

This advanced tower-style PTC ceramic heater is designed for rapid, consistent, and safe space heating in both residential and professional office environments. It features a versatile digital display and includes five distinct heating settings, including an ECO mode and a specialized fan-only mode for year-round utility. With its integrated 90-degree oscillation and a 24-hour programmable timer, it provides customizable comfort and energy-efficient operation for any workspace.

Technical Specifications

Power Performance

1500 W

Max Power (120V)

2200 W

Max Power (220-240V)

Operating Modes

Low, Mid, High, Fan, ECO, Freeze

Safety & Compliance

Safety Protections

- Tip-over switch
- Auto safety shut-off
- Overheat protection
- PTC ceramic heating element
