

Tower PTC Space Heater

This space heater is designed for household use. It utilizes Positive Temperature Coefficient (PTC) heating elements for efficient and safe heat generation.

Product Overview

Efficient PTC Tower Heater

This tower space heater utilizes advanced Positive Temperature Coefficient (PTC) ceramic heating elements for safe and reliable heat generation. Designed for versatility, it features five distinct heating modes including an ECO setting and a dedicated fan-only mode for year-round comfort. With integrated safety features like a tip-over switch and automatic overheat protection, it provides a secure heating solution for indoor environments.

Performance Metrics

Heating Performance

2200 W

Max Power (GS)

1500 W

Max Power (UL)

60 degree

Oscillation Angle

Technical Specifications

Operation Modes	Low, Mid, High, Fan, ECO
Timer Setting	0.5 - 24 hours

Safety & Compliance

Safety Approvals

GS • CCC

Safety Features

- Automatic Safety Shut-off
- Tip-over Switch
- Overheat Protection
