

# Tower Style PTC Fan Heater with Digital Display

This tower-style PTC fan heater ensures efficient and safe space heating. It features a positive temperature coefficient (PTC) heating element for rapid warm-up and consistent temperature, with a tower design for widespread heat distribution.

## Overview

### Tower Style PTC Fan Heater

This high-performance tower-style PTC fan heater features advanced ceramic heating technology for rapid and consistent warmth. Designed for both residential and professional environments, it incorporates safety features like thermal cut-out and tip-over protection. The unit includes a digital display, electronic thermostat, and an 8-hour timer for precise control over your heating experience.

## Technical Specifications

### Power Output

**2000 W**  
Max Power

**220 V**  
Voltage

**50 Hz**  
Frequency

### Heat Settings

- 1000
- 2000

## Safety & Features

### Control Options

Remote Control • Digital LED Display • Electronic Thermostat • 8-Hour Timer

### Safety Features

Thermal cut-out, Tip-over switch, Overheat protection

## Logistics

### Container Load Capacity

Container Type	Quantity
20' Container	680
40' Container	1412
40' HQ	1656
