

Track Type Edge Trimming Machine

This track type trimming machine is designed for precise edge trimming and finishing. It features a 6mm collet diameter and a no-load speed of 30000rpm.

Overview

Precision Edge Trimming Performance

The 9508U track type trimming machine is a specialized professional tool engineered for high-precision edge trimming and surface finishing. It combines a powerful 400W motor with a high no-load speed of 30,000rpm to ensure efficient material removal and smooth results. Compact and reliable, this machine is an essential addition to any workshop requiring accurate finishing work.

Technical Specifications

Rated Input Power

400 W

Rated Input Power

No-Load Speed 30000 rpm

Collet Diameter 6 mm

Electrical Requirements

Rated Voltage 220V

Rated Frequency 50/60Hz

Logistics

Packing Size 18.5 x 10 x 22.5 cm
