

Tracked Material Carrier

This tracked dumper efficiently transports materials across various terrains. Its robust construction ensures a long service life and the ability to handle heavy loads.

Overview

Robust Material Transport Solution

This tracked material carrier is engineered for heavy-duty material transport across challenging construction and landscaping sites. Its tracked design delivers superior traction and stability, ensuring reliable performance on uneven or soft terrain. Equipped with a high-capacity skip and intuitive controls, it offers a perfect balance of power, maneuverability, and operational safety for professional use.

Technical Features

Traction System

Tracked Drive • High Stability • All-Terrain Capability

Ideal Applications

- Construction Sites
- Landscaping Projects
- Bulk Material Transport
