

Tractor Clutch Pressure Plate for Kubota L Series

This clutch pressure plate is designed for Kubota L series tractors including L4508, L4400 and L4300 models. It is a crucial component within the tractor's clutch system, ensuring smooth power transmission.

Product Overview

High-durability pressure plate assembly for L-series tractors.

High-Performance Clutch Assembly
This premium pressure plate assembly is engineered for reliable power transmission in agricultural tractors. Designed to meet or exceed original equipment standards, it ensures smooth clutch engagement and long-term durability under demanding operating conditions. It is an essential component for routine maintenance and clutch system restoration to maximize field productivity.

Compatibility

Compatible Tractor Models	L4508, L4400, L4300, L4708, L5018
