

Tractor Clutch Pressure Plate for Kubota M7040 M9540

This clutch pressure plate is designed for Kubota M7040 and M9540 tractors. It facilitates the transfer of power from the engine to the transmission.

Product Overview

Premium Clutch Pressure Plate

This high-quality clutch pressure plate is precision-engineered for use in professional agricultural tractors. Designed for durability and consistent mechanical performance, it ensures seamless power transmission for demanding field work. It serves as an essential component for maintenance and repairs, helping to extend the operational lifespan of your machinery.

Compatibility

Compatible Tractor Models

M7040, M9540, M5000, M6040, M8540, M9000, M105, M1304
