

Tractor Gear for Kubota M6040

This gear serves as a replacement part for Kubota M6040 tractors. It is designed to provide efficient power transfer within the tractor's transmission system.

Product Overview

High-durability replacement gear designed for perfect fitment in M6040 models.

Precision Engineered Gear for M6040

This high-quality gear is specifically designed as a reliable spare part for tractors, ensuring seamless integration and optimal performance in agricultural machinery. Engineered to meet or exceed OEM standards, it focuses on durability and efficient power transmission for demanding fieldwork. It is an essential component for maintaining the integrity of the drive and transmission systems in your agricultural equipment.

Technical Specifications

Precision-engineered gears and transmission components for agricultural tractors.

Available Component Types

- Gears
- Connecting rods
- Shafts
- Hydraulic pumps
- Clutches
- Ball attachments

Compatible Tractor Models

L1500, L2201, L2202, L2402, L3408, L3608, L4508, L4708, L5018, M6040, M5000, M7040, M8540, M9540, M9000, M105, M1304
