Product Overview

Professional Soil Preparation Solution

This tractor-mounted offset disc harrow is engineered for efficient soil cultivation, making it ideal for breaking hardened soil, incorporating crop residue, and leveling seedbeds. Designed for versatility, it excels in heavy clay, wasteland, and weedy conditions, ensuring a smooth and loosened soil surface. With its durable 65Mn spring steel discs and adjustable working depth, this implement provides high productivity and reliable performance for small to medium-scale agricultural operations.

Technical Specifications

Model Specifications

Model	Working Width (mm)	Disc Qty	Weight (kg)	Matched Power (hp)
1BQX-1.1	1100	12	200	15
1BQX-1.3	1300	14	220	18
1BQX-1.5	1500	16	240	25
1BQX-1.7	1700	18	260	40
1BQX-1.9	1900	20	310	50
1BQX-2.3	2300	24	360	60
