Product Overview

Versatile Offset Disc Harrow

This tractor-mounted offset disc harrow is engineered to streamline soil preparation by efficiently managing crop residue, breaking hardened soil, and leveling fields. Crafted with high-quality 65Mn spring steel discs, it offers superior cutting and soil-shattering capabilities for heavy clay, waste land, or weedy fields. The adjustable design ensures precise working depth, making it a reliable solution for small-scale agricultural productivity.

Technical Specifications

Key Performance Metrics

120 mm

Working Depth

15 hp

Minimum Power Required

Model Specifications

Model	Width (mm)	Discs	Weight (kg)	Power (hp)
1BQX-1.1	1100	12	200	15
1BQX-1.3	1300	14	220	18
1BQX-1.5	1500	16	240	25
1BQX-1.7	1700	18	260	40
1BQX-1.9	1900	20	310	50
1BQX-2.3	2300	24	360	60

Construction & Features

Linkage Compatibility

- Three-point suspension I type
- Three-point suspension II type

Build Quality & Features

65Mn spring steel, Durable bearing assembly, Integrated scrapers, Adjustable working depth
